

PROJECT: FRIENDS OF MARINE STADIUM LOGO

DESIGNER: YOLANDA MONTEZA

SUBMITTED: MAY 1ST, 2009

I was inspired to enter this contest because I believe the Miami Marine Stadium should be saved and restored. Every time I drive by it I am struck by its architecture.

I see multiple triangular shapes in the structure of the stadium which is why I used triangles in the logo. It is a versatile logo that could work in full color or black and white. It can be adapted to be used in printed, digital or embroidered media.

Below is a horizontal version of the logo.

Thank you for your consideration. Please contact me if you have any further questions.

Sincerely yours,

Yolanda Monteza
