Friends of Miami Marine Stadium  
1390 Ocean Drive #207  
Miami Beach, FL 33139

The South Florida Triathletes/Team Hammerheads club strongly supports the restoration efforts of Friends of Miami Marine Stadium. With over 500 members, our group is the most important participatory triathlon organization in South Florida.

We have raced at the Marine Stadium site for years. It is a spectacular setting with incredible potential. We are also very familiar with the efforts of Friends of Miami Marine Stadium. The organization made a presentation to our group several years ago and we have closely followed the progress.

Restoration of the Stadium, and an improved "great lawn" in front, would allow us to promote further the fast-growing sport of triathlons. The restoration could help make triathlons at Marine Stadium spectator-friendly, and even incorporate festivals that would entice participants with families all around the world to travel to South Florida.

We look forward to working with you to make the Marine Stadium and basin one of the best locations for triathlons in the world.

Yours truly,

SFT Board  
Chiara Manton, President  
Marty Sudut, Vice President  
Ed McNamara, Secretary  
Yolanda Jardon, Treasurer  
Luis Camps, Board of Director  
Ray Perdomo, Board of Director  
Patty Spencer, Board of Director  
Christy Gracey, Board of Director
