Friends of Marine Stadium
C/o Dade Heritage Trust
190 SE 12th Terrace
Miami, FL 33131

I am writing to support the restoration of Miami Marine Stadium. This is an incredible venue, and it could be used to create some extraordinary events that would be of great benefit to the City.

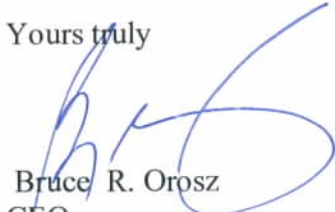

Since 1981, Act Productions has been creating such events. Some of our best known projects are the Fedex Orange Bowl Halftime Shows, the Clio Awards Festival, Art Basel and the Miami Beach Polo World Cup.

The characteristics of the Stadium don't exist anywhere else, and as a result truly one of a kind experiences can be created. We could develop some very unique events that use water, such as water ski shows, marine technology demonstrations and more. The Marine Stadium will allow us to bring more family related events to Miami – something that is lacking in our community. There is also the opportunity to create events during Miami's "off season" (April –November), which can generate tourism.

Our firm has also developed linkages with important media organizations and we could easily do local, regional and larger scale broadcasts emanating from the Stadium.

ACT Productions is very excited about the possibilities. We look forward to producing many great, one-of-a-kind experiences at the Stadium.

Yours truly
