NYK Productions is pleased to strongly support the restoration of Miami Marine Stadium. We believe it can be a superb concert venue and we enthusiastically look forward to the opportunity to program for it.

For over 30 years, we have been promoting concerts and events in South Florida, as well as Las Vegas, Israel, Russia, Mexico, and many other places. We have strong, long term relationships with artists such as Ricky Martin, Shakira, Julio Iglesias, Placido Domingo and many others.

The Miami Marine Stadium is a remarkable venue. Perfect in size, it has amenities that few other places have. We know that we can be extraordinarily successful here and provide the audience with a very unique experience.

Yours truly,

ARIE KADURI  
President
