The Latin American Business Association is pleased to support the restoration of Miami Marine Stadium. Restoring the Stadium itself will provide construction work and jobs at an important time. Once renovated, the Stadium can host high profile events which will have an important economic impact and will also help us promote Miami and encourage tourism.

Finally, many of our members remember attending events at the Stadium. There is nothing like it anywhere.

The Marine Stadium can be a terrific asset to our community and we support this initiative.

Yours truly,
LABA Board of Directors
