Dear Friends of Miami Marine Stadium,

F1 ChampBoat Series, the #1 spectator sport on water, applauds your efforts in working with the City of Miami to bring the historic designation to Miami Marine Stadium.

This historic world class venue, in a world class city, holds great stellar memories for the sport of powerboat racing; therefore Powerboats racers throughout the world applaud Miami for the preservation of this great venue.

As you know, the F1 ChampBoat Series is dedicated to make a long term commitment to bring F1 powerboat racing back to Miami and this great venue. Initial events could staged using all temporary facilities and can serve as facility awareness and fund raising events to assist the rebuilding of the stadium facilities.

Long term, the Stadium has terrific potential for our sport. The F1 ChampBoat Series differentiates from other forms of power boat racing by providing an up close spectator product geared for families. Furthermore, our outboard racing engines are quieter and greener than other power boats, providing a win-win situation for Miami.

In addition to providing great family entertainment, ChampBoat races provide great publicity for the area. The F1 Champboat series has enjoyed a long term relationship with the SPEED Channel with 30 minute race broadcast during the winter months after each season. Beginning in 2009, ChampBoat will shoot live to tape to allow immediate news video releases (NVR) maximizing news media coverage. With the terrific downtown visuals from Marine Stadium, we know that this will generate significant media coverage for Miami.

Again, we thank you for all that you are doing to promote our sport and the future of powerboat racing for Miami. Good luck with your continued efforts.

Warmest regards,
